To adopt Section 5 of Article XVII of the Constitution of the State of Ohio.

In order to establish revised limits on political contributions, establish prohibitions regarding political contributions and provide for revised public disclosure requirements of campaign contributions and expenditures, this amendment would:

\* Define a "small donor action committee" as a PAC that receives contributions only from individuals of no more than \$50 per year per contributor, except that a non-profit membership organization may contribute funds from regular membership dues of its members to small donor action committees that it establishes or are established by a non-profit membership organization with which it is a member or affiliated, provided that no more than \$50 per year per member may be contributed.

\* Require public disclosure of political contributions and expenditures, including independent expenditures. Require candidates for state executive offices or member of the General Assembly to electronically file with a single office within one business day of receipt of a contribution in the amount of \$1,000 or more received during the period 30 days before an election.

\* Provide for no limits on a candidate's capacity to spend his or her own money in connection with his or her own campaign, and have the effect of repealing existing law allowing an opponent to be exempt from contribution limits.

\* Permit labor unions, and other nonprofit unincorporated membership organizations, to contribute funds from regular membership dues paid by the organization's individual members to a small donor action committee. The small donor action committee is not required to report the names of individuals who contribute in this fashion.

\* Prohibit committees registered with and regulated by the Federal Election Commission from making contributions or independent expenditures in connection with any nonfederal candidate election in this state or making a contribution to a political party in this state for nonfederal elections.

STATE ISSUE #4 PROP CONSTITUTIONAL AMEND

**OFFICIAL ABSTRACT OF VOTES - GENERAL ELECTION - NOVEMBER 8, 2005**  
**FRANKLIN COUNTY, OHIO**

**#4 PROPOSED CONSTITUTIONAL AMENDMENT**

(Proposed by Initiative Petition)

To amend Article XI of the Constitution of the State of Ohio.

To provide for the creation of a state redistricting commission with responsibility for creating legislative districts, this amendment would:

- \* Replace the current provisions of Article XI of the Ohio Constitution, including the two existing separate processes for creating legislative districts and for electing representatives to Congress and representatives and senators to the Ohio General Assembly with a new state commission.
  - \* Provide that the new commission would be composed of five members, two of whom would be chosen by sitting judges, and the remaining members appointed by the first two or chosen by lot. The terms of the members of the commission shall be until the later of the adoption of the redistricting plans required to be adopted under the Article or the conclusion of all litigation in any court regarding such plans or the commission's responsibilities, actions or operations.
  - \* Provide that a primary criterion to be utilized by the new commission in creating legislative districts would be to ensure that the districts are competitive, according to a mathematical formula contained in the Amendment.
  - \* Provide that the commission must adopt a qualifying plan with the highest "competitiveness number", as defined in the proposed Amendment. The Amendment defines the "competitiveness number" of a plan by a mathematical formula, that is the product of the number of balanced districts multiplied by two, plus the total number of other remaining competitive districts, minus the total number of unbalanced uncompetitive districts multiplied by two. The competitiveness number for a general assembly plan is the sum of the competitiveness number for the house of representatives districts and the competitiveness number for the senate districts. Provide that the "measure of competition" of a legislative district be based on a calculation using the two average partisan indexes for the district, which are calculated on the basis of the percentage of votes received by each of the two partisan candidates who received the two highest vote totals statewide in each of the three closest general elections during the four previous even-numbered years prior to adopting a redistricting plan, keeping the index for one of the partisan affiliations always as the minuend and the index for the other partisan affiliation always as the subtrahend from district to district throughout a redistricting plan.
  - \* Provide that the commission may consider whether to alter a plan to preserve communities of interest based on geography, economics, or race, so long as the reconfiguration does not result in a competitiveness number that is more than two points lower for a congressional plan and four points lower for a general assembly plan.
  - \* Provide that the commission may design and adopt a redistricting plan if the plan meets the same criteria and has a competitive number equal to or greater than each submitted qualifying plan.
  - \* Provide a method for the commission to assign state districts for senators whose terms do not expire at the end of the first even-numbered year following adoption of the plan.
  - \* Provide that legislative district boundaries shall change in 2007 and, thereafter, every year ending in one following a federal decennial census.
  - \* Provide that the supreme court of Ohio has exclusive original jurisdiction involving redistricting plans adopted under the amendment, but limits such jurisdiction to ordering the commission to perform duties required under the amendment and prohibit the court from revising or adopting a plan.
  - \* Provide for open meetings, public hearings, and certain public record requirements regarding the activities of the commission.
  - \* Provide that the general assembly must appropriate sufficient funds for the commission to perform its duties. The commission may expend funds as it, in its discretion, deems necessary.
- A majority yes vote is necessary for passage.  
SHALL THE PROPOSED AMENDMENT BE ADOPTED?
- 

STATE ISSUE #5 PROP CONSTITUTIONAL AMEND

**#5 PROPOSED CONSTITUTIONAL AMENDMENT**

(Proposed by Initiative Petition)

To adopt Section 4 of Article XVII of the Constitution of the State of Ohio.

To create a newly appointed board to administer elections, this amendment would:

- \* Eliminate responsibility of the elected Ohio Secretary of State to oversee elections.
  - \* Create an appointed board of nine members to administer statewide elections and oversee the existing county boards of elections.
  - \* Provide that the members of the board are appointed as follows: four by the governor, four by the members of the general assembly affiliated with the political party that is not the same as that of the governor, and one by a unanimous vote of the chief justice and justices of the Ohio Supreme Court. The member appointed by the Supreme Court may not be affiliated with a political party. The governor and members of the general assembly must appoint equal numbers of men and women and take into consideration the geographic regions and racial diversity of the state. Members would serve staggered nine-year terms. Members may not hold any elective or other appointive public office, be a candidate for public office, hold a position with a political party, or be a registered lobbyist, and would be prohibited from making or soliciting political contributions and being involved in a candidate or ballot issue campaign.
  - \* Require the state board of elections supervisors to hire an administrative director, to prescribe uniform procedures to be followed by the county boards of elections, to appoint and remove members of the county boards of elections in accordance with statutory provisions, to certify the petitions of candidates for statewide offices and petitions for statewide ballot issues, to certify all equipment and systems used for voting and counting of votes, to approve ballot language for all statewide issues, and to maintain a statewide voter registration file.
  - \* Require the General Assembly to set a reasonable level of compensation for the members of the state board of elections supervisors and to appropriate sufficient funds for the board to be able to fully perform its duties and to compensate such staff and to acquire such equipment, supplies and office space as necessary for such performance.
- A majority yes vote is necessary for passage.
